

Alex's Stained Glass

I wanted to draw this type of design because I usually think stained glass is just a bunch of random lines combined and then colored looks good. I put mickey mouse in the middle because I make mickey mouse jokes with my friends a lot and the stained glasses I usually see have a design in the middle like a person or something.

Linear equations used to make the design are:

$$y = 1x - 13$$

$$y = 1x + 7$$

$$y = 1x$$

$$y = \frac{4}{5}x + 4$$

$$y = -1x - 8$$

$$y = -1x - 11$$

$$y = \frac{2}{3}x$$

$$y = \frac{1}{2}x + 7$$

$$y = -1x + 10$$

$$y = -\frac{2}{3}x + 15$$

$$y = 1x - 21$$

And the dot to dots are the following:
